Legacy Exotic Black Limba Oliveburst w/ brass hardware*

14x24" bass drum, Classic lugs, Curved Spurs, no mount (LLB444 XXL4WCB)
16x18" floor tom, Classic lugs, Classic Brackets (LLF468 XXL4WCB)
16x16" floor tom, Classic lugs, Classic Brackets (LLF466 XXL4WCB)
9x13" tom, Vibraband with Classic Bracket (LLT493 XXL4WCRB)
6.5x14" snare, Millennium Strainer, Tube lugs (LLS464 TDL4WMB)

*Brass hardware availability is a custom option and is limited by size and option type. Consult your Ludwig Dealer for more details.
Welcome, once again, to the world of Ludwig Percussion. Inside this catalog, you will find a wide variety of drums to suit the needs of every drummer. Last year we were fortunate enough to celebrate Ludwig’s 100 years of drum making, and now we enter into our second century with an even greater enthusiasm!

We work hard to live up to the standards set by William F. Ludwig, Sr. and William F. Ludwig, II. The Ludwig legacy was built on exceedingly high standards in craftsmanship, innovation, and a commitment to surpass the needs of every percussionist. The Ludwig staff is a group of drummers and percussionists who are 100% committed to these same, time-tested ideals. We focus daily on improving instrument designs, acoustics, manufacturing process, quality and, most importantly, customer satisfaction.

We welcome you to the “Ludwig Family” and encourage you to take a tour of the products we offer. Whether you are searching for a starter drum set, or for that one snare that has eluded your collection for years, we are confident that Ludwig has something for you. Now, a century after it all began, we remain proud to be an American company competing in a global market, and we thank you, the Ludwig customer!

Thanks for keeping us The Most Famous Name On Drums!

Sincerely,

Grant Henry
General Manager, Ludwig/Musser
By applying many of the same shell-making properties we have refined over the past century, Ludwig is proud to introduce Legacy Exotic, a stunning rethink to a modern classic. This flagship professional drum line employs the 3-ply combination of inner and outer North American Maple and the traditional single Poplar core ply with solid Maple reinforcement rings; forging a rich sonic warmth that is unheard of in the tonal spectrum.

**SHELL**

Exotic Veneer over 1/32” Maple Outer Ply, 1/8” American Poplar Core Ply, 1/16” Maple Inner Ply, 1/8” Solid Maple Reinforcement Rings.

Tradition, Craftsmanship and Visionary Excellence; these are the values at the center of Ludwig’s classic legacy. With these values comes a commitment as true as the care and pride that goes into each drum, hand-crafted at Ludwig’s manufacturing facility in Monroe, North Carolina.

Combining the benefits of today’s most advanced manufacturing processes with the experience that comes with a century of drum making, Ludwig’s Legacy Classic Series revive the distinctive sound of the world’s most famous drums. These custom-built American-made drums are a modern interpretation of the legendary Ludwig shells that set the standard for popular music throughout the 20th Century.

Legacy Classic shells are made from choice cuts of hand-selected North American hardwoods. A core ply of premium Poplar yields warmth and resonance while cross-laminated inner and outer plies of Maple deliver power and clarity. This proven design is then augmented with 1/4” single-ply Maple reinforcement hoops and rounded classic-cut bearing edges for thundering lows and pronounced articulation, suitable for any musical style.

Not merely a blast from the past, Legacy drums take full advantage of state-of-the-art manufacturing techniques with rigorous attention to detail. The Legacy Classic Series are now available in expanded sizes and finish options for the consummate professional.

The 1970’s were a time of great innovation at Ludwig’s Damen Ave. facility. True to Ludwig’s tradition of innovation, Stainless Steel kits were forged for unprecedented volume, sustain, and power in heavy music. Ludwig’s new Anniversary Edition Stainless Steel Pro Beat outfit is a true testament to our timeless roots. Only 100 kits will be made available, all of them hand-rolled and tooled by Drumsmith Ronn Dunnett.

Ultra-thin 1.5mm stainless steel shells produce crystalline resonance throughout the drum. Together with precision-cut, pin-point bearing edges, enormous tone and volume is attained without brash overtones.

Choose from polished chrome steel finish with brass hardware or brushed stainless finish and chrome hardware.
Choose from 36 eye-catching finishes varying from Vintage Pearl and Sparkle Wraps, Gloss Lacquers and exclusive Exotic Veneers.

**EXOTIC VENERS**

- Mochaal Bubinga (32)
- Briquette Maple (26)
- Quilted Makore (66)
- Arctic Glitter (76)
- Red Sparkle (35)
- ViBra-Band Tom Mounting System

Introducing Ludwig’s new ViBra-Band tom mounting system, featuring a sleek, small profile mounting plate. The ViBra-Band allows the drum to “float” freely for maximum uninhibited resonance. Shown with an Elite bracket.

Choose from Classic Curved spurs or Elite Telescoping spurs.

Bass Drum Mounts

Choose a single-mount bass drum (not shown), Modular Double, Classic Double, Single Rocker or Elite Rail Conversion mounts.
Traditionally, the Ludwig Sound has run the gamut between the low tonal warmth of the Legacy shell, and the resonant midrange qualities of Classic Maple. As musical tastes and styles have evolved, a growing segment of the drumming community sees the need for a louder alternative. With this in mind, Ludwig’s team of engineers and craftsmen went back to square one with a single goal: a completely new shell for today’s Ludwig Drummer.

As the latest creation from Ludwig USA’s Monroe facility, Keystone Series Drums have the distinction of a more focused tonality. The 3-ply Maple core used in our Classic Maple drums is augmented with 1/16” inner and outer plies of American Red Oak. This 5-ply combination creates a thin, dense shell that speaks loudly with quick, even decay. To draw further from this unique hybrid, a dual 45-degree bearing edge is pulled to the center of the shell to seat perfectly into the head. The end result is a shell that produces solid, authoritative tone with high power and attack. A perfect balance between high-volume cut and subtle articulation is achieved for the live music drummer. Keystone Series is made under the same strict quality and structural standards as Classic Maple and Legacy drums, putting a modern twist on a century of custom American drum making.

The namesake of Ludwig’s legendary icon, Keystone Series Drums come standard with Evans USA G2 batter heads, and new low-contact Keystone lugs and mounting brackets. These dramatic accents are augmented by four stunning glass glitter finishes for dramatic look and feel. As the latest creation from Ludwig USA’s Monroe facility, Keystone Series Drums have the distinction of a more focused tonality. The 5-ply Maple core used in our Classic Maple drums is augmented with 1/16” inner and outer plies of American Red Oak. This 5-ply combination creates a thin, dense shell that speaks loudly with quick, even decay. To draw further from this unique hybrid, a dual 45-degree bearing edge is pulled to the center of the shell to seat perfectly into the head. The end result is a shell that produces solid, authoritative tone with high power and attack. A perfect balance between high-volume cut and subtle articulation is achieved for the live music drummer. Keystone Series is made under the same strict quality and structural standards as Classic Maple and Legacy drums, putting a modern twist on a century of custom American drum making.
There are many imitators but none compare to the original Ludwig Vistalite Plexiglas® drums. Originally introduced in 1972, the tradition of outstanding sound projection and power along with the renowned see-through appeal transcends time.

While preparing for the Zeppelin Reunion in 2007, Jason Bonham requested a kit, with his own personal imprint, that would carry the legendary spirit of his father’s playing forward. The result was the inspiration behind Jason’s Limited Edition Signature kit. A true Ludwig first, this yellow Vistalite in John Bonham’s own Zep set configuration features black powder-coated hardware and fittings on all drums, for a truly unique look. To further authenticate these limited-number production kits, Jason personally signed each drum head, emblazoned with the iconic imagery from his father’s first masterpiece.

Vistalite drums are available in 4 colors: Amber (47), Blue (55), Yellow (56) and Clear (38)

Custom set shown with 16x22" bass drum, 16x16", 14x14", 14x14" floor toms, 5x14" tom tom, 10x14" snare drum. Features: Classic tom legs and brackets, Mini-Classic lug, Vistalite badge. An ordered as optional, single tom bracket, vintage drum shell badge.

www.ludwig-drums.com | 22
With the touring player’s demands in mind, Ludwig presents the Centennial Series. Combining the warmth and projection of quality North American Maple shells with a choice of 4 custom configurations, Centennial delivers reliability and the legendary Ludwig sound in one exceptional package.

Charcoal Shadow (B)
Natural Maple (N)

Any drum set can be flexible in its set-up, but how many kits can be so flexible that they are completely different every time? Epic Modular's 6-ply, all birch shells fit the bill, coming standard with two rack toms, two floor toms, and two 8x20” kick drums that connect together for one massive sound.

Epic Modular can even be played as two separate kits for smaller club performances or interactive education.

Arranging the included rack and floor toms in a myriad of patterns created multiple creative set-ups for gigging drummers.

The hallmark of the Ludwig sound has always begun with the shell. As we enter a new phase of our manufacturing history, Ludwig returns to its roots with Epic X-Over, a new series of drums crafted for every player from the gigging workhorse to the seasoned pro.

**SHELL:** Walnut/Maple/Walnut Inner and Outer, Poplar Core, 3-ply Birch Reinforcement Rings

American Walnut is known not only for its dark color and grain, but also for its deep tonality and warmth. The new Epic X-Over expands on darker overtones by employing a Poplar core to an inner and outer Walnut shell. 3-ply Birch reinforcement rings are added for extra definition and focus, resulting in a sound that speaks in the lower register with power and clarity.

Segmented shell crafting is an exciting concept that incorporates the dark quality of Walnut inner/outer plies fused with the warmth of North American Maple inner/outer plies to create a whole new tonal as well as visual experience. This magic combination combined with 3-ply Birch reinforcement rings and Poplar core plies results in a sound and look that is unparalleled in drum making. The perfect balance between rumbling lows and sparkling highs is achieved with the Epic X-Over Striped Series.

This low-contact shorter version of our Classic Lug allows for further vibration in the shell. (Shown in Natural/Purple Finish)

**NEW RAIL CONSOLETE**

The original rail-mount was introduced in 1963 as a flexible tom mounting solution. This sturdy update features universal ball-in-socket positioning, height adjustment and a knurled rail for solid performance and hold.

**BASS DRUM LIFT**

For better tone and response from the 18" bass drum on the Jazzette outfit, the hoop on the X-Over Jazzette is fixed with this unique lift.

**KEYSTONE TOM BRACKET**

Taking on the shape of our company icon, the new Keystone Bracket takes up less space on the shell for added resonance and stable tom and floor mounting. (Shown in Purple Passion Finish)

Extended for a limited time. Qualifying Epic, Element Lacquer and Element Series 5-pc. drum sets will include an additional tom at no extra cost. Offer subject to change without notice, pricing and participation may vary. See www.ludwig-drums.com for details.
For the perfect sonic compliment to three infamous Ludwig finishes, the latest addition to the Element SE collection fuses Cherry and Gum woods for proper vintage flair. With more density in each drum, these limited production kits produce a dry, focused sound that speaks quickly with the right amount of overtone. A true modern classic from the Psychedelic Era.

Element SE is a destination for specialized, limited production kits showcasing an evolving array of customized features for the gigging player.

 Throne & cymbals included
Available in Wine Red (shown), Black and Blue

www.ludwig-drums.com | 36
One of the primary reasons Ludwig is “the most famous name on drums” is the legendary Black Beauty Snare Drum. The brass shell is constructed of a single sheet of brass that is machine drawn and spun into a seamless beaded drum, then black nickel plated with a beautifully exquisite finish. The shell provides a warm, round metallic tone.

With any of the three strainer options of P85 Supra-Phonic, P86 Millennium or P70 Super-Sensitive strainers, the Black Beauty responds with excellent sensitivity at all volumes. Choose from Imperial or tube lugs, die cast or triple-flanged hoops and a smooth or hand hammered shell. The 70 year tradition of the Ludwig Black Beauty carries on as the ultimate snare drum in the industry.

From Jazz to Metal, Ludwig 400 Series Snare Drums provide the perfect sound in the studio or on stage. The USA made chrome plated seamless aluminum shells produce a bright, crisp cutting sound, with the perfect balance of full resonant tone and snare crack.

The Memorial Edition “Chief” Supaphonic’s .035” tick Titanium shell (prepared exclusively for Ludwig by drumsmith Ronn Dunnett) offers a wide tuning range and crisp, amplified tone. As the only Supaphonic available in 5.5”x14”, the Chief also features a piston throw-off, adjustable air-vent, Imperial Lugs, and a specially-minted badge featuring the drum’s namesake, William F. Ludwig II.

Performance proven to be the sound that fueled the most hit recordings in history, the Ludwig LM400 and LM402 are the snare drum choice of the pros.

Brass on Brass Black Beauty - LB416BT
Features: brass plated P86 Millennium snare strainer, brass plated P33 butt plate, brass tube lugs, brass die cast batter and snare hoops

From beginner to gigging player, Ludwig's Rocker and Accent Snares offer variety and value for all types of playing styles. It's all here and it's all Ludwig.

**Rocker Metal Snare**
- LR719 - 6.5x14"  
- LR720 - 5x14"

**Chrome Steel Snare**
- LM302 - 6.5x14"  
- LM300 - 5x14"

**Rocker Brass Snare** - 6.5x14" - LM306
Ludwig snare tone at player-friendly pricing, featuring Classic lugs and 1.5mm triple-flanged hoops. Also available in 5x14" - LM305.

**NEW! Hammered Brass - LB422BKT**
Hammered using the same process as Ludwig Timpani. 5x14" and 6.5x14" models are similar in tone to the Black Beauty but higher in pitch. Features seamless brass shell with tube lugs and 2.3mm hoops.

**Accent CS Steel Shell - Chrome plated**
- LC054S - 5x14"

**Rocker Bronze Snare** - 6.5x14" - LM306
Deep, throaty snare tonality with an affordable price-tag. Features Ludwig Classic lugs and 1.5mm triple-flanged hoops. Also available in 5x14" - LM305.

**NEW! Hammered Brass - LB422BKT**
Hammered using the same process as Ludwig Timpani. 5x14" and 6.5x14" models are similar in tone to the Black Beauty but higher in pitch. Features seamless brass shell with tube lugs and 2.3mm hoops.

**BRASS SNARE DRUMS**

The Ludwig Snare Drum pedigree was built on the foundation of Brass. Now available in a variety of sizes and options, Ludwig Brass Snares project with bright, soaring highs and a crisp sensitivity essential for capturing every stroke.

**Chrome-plated Brass Snare - LB602BBTWM**
Features: spun seamless brass shell, brass plated P86 Millennium snare strainer, brass plated P33 butt plate, brass tube lug, brass die cast batter and snare hoops

**NEW! Hammered Brass - LB622BKT**
Hammered using the same process as Ludwig Timpani. 5x14" and 6.5x14" models are similar in tone to the Black Beauty but higher in pitch. Features seamless brass shell with tube lugs and 2.3mm hoops.

**Rocker Brass Snare - 6.5x14" - LM306**
Ludwig snare tone at player-friendly pricing, featuring Classic lugs and 1.5mm triple-flanged hoops. Also available in 5x14" - LM305.

**ACROLITE SNARE DRUMS**

Once perceived as a student-level snare drum, the sound of the Ludwig Acrolite Snare has become an artist favorite for bright, dry response and articulate play. Featuring the signature “Black Galaxy” finish, Classic lugs and unique black/white vent badge, Acrolite’s seamless aluminum shell reflects Ludwig excellence in quality and leaves no question that it is simply a tremendous snare drum at any level.

**LM404 - 5x14"**

**LM405 - 6.5x14"**

**ROCKER AND ACCENT SNARE DRUMS**

From beginner to gigging player, Ludwig’s Rocker and Accent Snares offer variety and value for all types of playing styles. It’s all here and it’s all Ludwig.

**Chrome-plated Brass Snare - LB602BBTWM**
Features: spun seamless brass shell, brass plated P86 Millennium snare strainer, brass plated P33 butt plate, brass tube lug, brass die cast batter and snare hoops

**NEW! Hammered Brass - LB622BKT**
Hammered using the same process as Ludwig Timpani. 5x14" and 6.5x14" models are similar in tone to the Black Beauty but higher in pitch. Features seamless brass shell with tube lugs and 2.3mm hoops.

**BROZNE SNARE DRUMS**

A softer, darker alloy generally used for cymbal making, bronze presents a unique blend of metal snare projection and the warmer tones of a wood drum. Options include standard 2.3mm triple-flanged or die-cast hoops, Imperial or tube-style lugs and Classic P85 or Millennium P86 snare strainers. Bronze snares are also available with Super-Sensitive snare strainer.

**LB625KT - 6.5x14"**
Hammered bronze snares deliver a unique, drier tone and a broad sonic range.

**Bronze - 5x14" - LB550**
Features Ludwig’s seamless bronze shell with smooth finish for ultimate resonance.

**Bronze - 6.5x14" - LB550**
Features Ludwig’s seamless bronze shell with smooth finish for ultimate resonance.

**Bronze - 5x14" - LB550**
Features Ludwig’s seamless bronze shell with smooth finish for ultimate resonance.

**Rocky Bronze Snare - 6.5x14" - LM306**
Deep, throaty snare tonality with an affordable price-tag. Features Ludwig Classic lugs and 1.5mm triple-flanged hoops. Also available in 5x14" - LM305.

**Rocker Metal Snare**
- LR719 - 6.5x14"  
- LR720 - 5x14"

**Chrome Steel Snare**
- LM302 - 6.5x14"  
- LM300 - 5x14"

**Accent CS Steel Shell - Chrome plated**
- LC054S - 5x14"
Ludwig’s exotic wood snare drum line offers a stunning array of exclusive veneers selected from Steinway Piano in Boston, MA. From figured woods like Birdseye Maple and Waterfall Bubinga, to quilted woods like Makoré and Sapele, all exotic snares feature 7-ply of maple with an outer ply of exotic veneer. Available options include tube-style lugs, die-cast hoops and brass hardware.

Available in a wide selection of sounds, sizes and styles, from piccolo, standard and deep models. From lacquer, exotic and wrapped finishes, Ludwig Classic Maple snares are the new Classics of today. Sizes not shown: 6x13”, 3x13” and 3.5x14”.

Ludwig’s wood snares have remained popular throughout the company’s 100-year history and were the drums that helped establish the fat backbeat and deep grooves of pop and R&B music in the 1970’s and 80’s. The Classic Maple 7-ply all-maple shell features the clarity and warmth players have come to expect from maple drums, plus the projection and musicality that has maintained Ludwig’s reputation for snare drum innovation and excellence.

Further pushing the Epic shell hybrid concept, the Centurion line consists of three snare models; each with a different exotic wood shell and unique tonal distinction. Coming standard with tube-style lugs and 2.3mm hoops, Epic Centurion Snares are a unique destination for the discerning collector.

www.ludwig-drums.com
Legendary, player-approved sound. Ludwig pioneered the black-nickel over brass shell concept in the early 1920’s, setting a standard that all other would follow. Black Magic Snare Drums bring that signature sound and quality to a whole new playing spectrum, with four models to satisfy any playing situation. Accentuated with matching tube lugs and die-cast hoops, Black Magic snares deliver classic tone that drummers have come to expect from Ludwig.

Yet another in a series of Ludwig firsts, NEW Black Magic Stainless models incorporate a mirror-polished, 1.5mm stainless steel shell for bright, cutting attack and mid-range overtone. Black Magic’s black-nickel tube-lugs and appointments provide, sharp visual contrast, and tonal range is broadened with 2.3mm power-hoops.

Noted Clinician and Rascal Flatts Drummer Jim Riley has always relied on a variety of Ludwig snares to get the job done. Jim’s new Signature Snare combines the best elements of his favorite models in one, reliable workhorse. Its 1.5mm Stainless Steel shell produces plenty projection and SNAP, while its 8” depth lends the balanced warmth of a wood drum. Ornamented with a laser-engraving that is true to Riley’s roots, its visual brilliance is offset by black-nickel tube-lugs and die-cast hoops.

“This drum has been tested from Nashville studios to the arena stage and sounds fantastic every step of the way.” - Jim Riley
From the student-level percussionist to the professional touring and recording drummer, Ludwig offers a full line of hardware designed to fit the needs of every player.

**900 SERIES HARDWARE**

Ludwig’s 900 Series hardware presents a full line of road ready stands to equip the gigging drummer with versatility and stability. 900 Series hardware offers functions such as the disappearing cymbal boom arm of the LM935BCS stand and the smooth action and flexible spur leg of our LM918HH Pro Float hi-hat stand. Snare drum positioning is a breeze with the low-profile, nylon ball positioning system of our LM922SSL snare stand.

Featuring nylon inner linings for smooth operation, the Ludwig Collar Clamp for stress-free height positioning and triple chrome plating, 900 Series Modular Hardware is made to stand up to the challenge of the road.

The LM918HH Pro Float stand features a smooth floating action pedal mechanism with six possible tension adjustments. The cam lever system allows for easy pedal action. The additional spur leg can be positioned on either side of the stand, or removed completely. The Pro Float stand is also equipped with a Velcro-lined rock plate for added stability.

**800 SERIES HARDWARE**

Sturdy and reliable, 800 Series stands feature the same cymbal, hi-hat and snare drum support as the 900 Series, but with single braced legs for reduced weight. Ideal for repeated set-up and tear-down, 800 Series is heavy in function, but lighter for the load.

**700 SERIES HARDWARE**

When the gig calls for a light-weight alternative to the normal bulkiness of tour-class stands, 700 Series cymbal, cymbal boom, snare and hi-hat stands offer the durability and rigid strength of double braced hardware, with thinner diameter piping and fixtures.

The LM918HH Pro Float stand features a smooth floating action pedal mechanism with six possible tension adjustments. The cam lever system allows for easy pedal action. The additional spur leg can be positioned on either side of the stand, or removed completely. The Pro Float stand is also equipped with a Velcro-lined rock plate for added stability.
300, 400 & 200 Series

300 Series Hardware
Pro features don’t always have a high price tag attached. Ludwig 300 Series hardware features the functionality, heavy tubing and sturdy, double braced legs that are normally only found on high-end stands. From the disappearing boom arm on the L336MBS cymbal stand, to the multi-tension control on the L316HH hi-hat stand, 300 Series hardware puts tour-strength gear in the hands of the drummer at an astonishing price.

400 Series Hardware
For the up-and-coming drummer, 400 Series stands are made to be accessible without sacrificing the elements needed to take real punishment. Performance-proven features include hide-away boom tilters, double-braced legs, basket-style snare stand adjustments and reinforced locking mechanisms for secure positioning.

200 Series Hardware
A standard hardware package for the beginning player, 200 Series stands combine form and function with sturdy construction. A great start for drummers of any age.
Ludwig Pro Pedals are the next generation of design. The LMB15FFPR Single and LMB12FFPR Double Pedals offer rock plate technology for the ultimate in stability. Pro pedals feature a double chain drive, reversible pedal beater, a side adjustment hoop mount, a stylish footboard and fast, smooth cam action mechanics. These Pro Pedals also include Pedal Bags for the gigging drummer.

Not Shown:
- LMB11RP Rock Plate Add-On
- LMB24FFR Ludwig Pro double pedal (includes bag)
- L312FFR Ludwig double pedal
